# INTRODUCTION

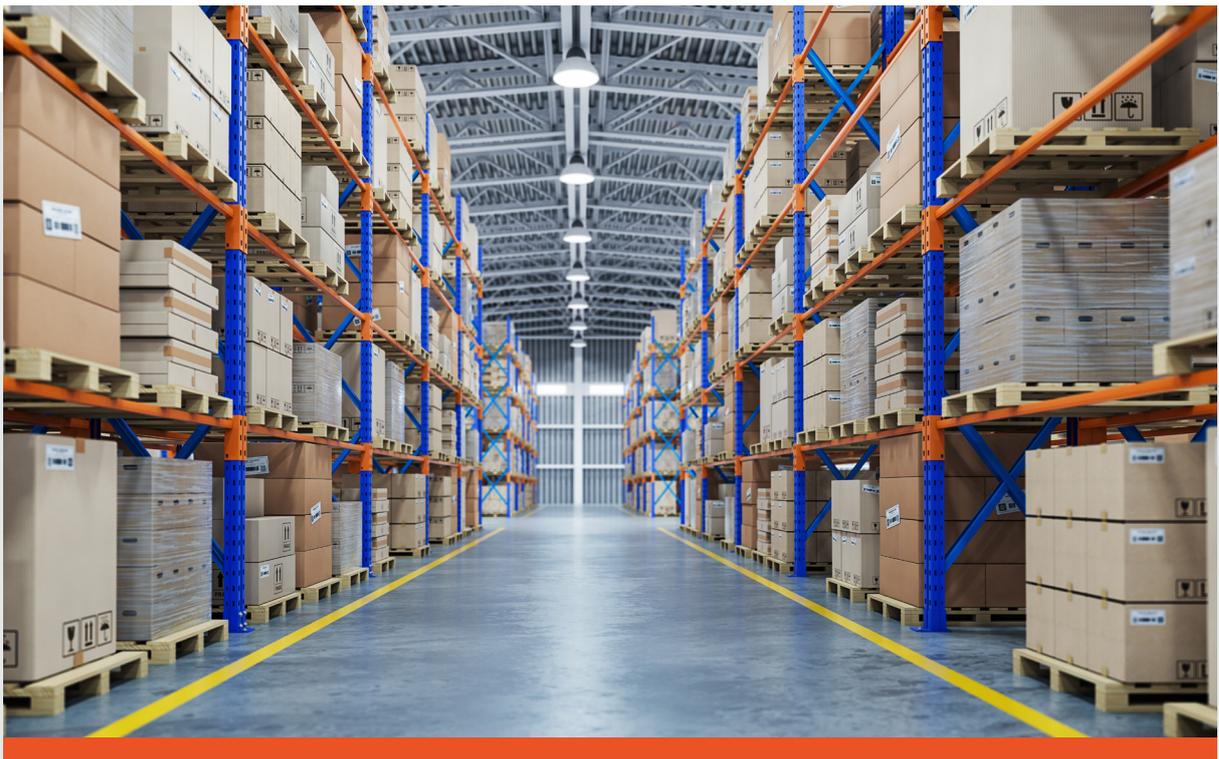

I am very pleased to introduce our refreshed Supplier Code of Conduct, which we have taken the time to thoroughly review and in doing so have introduced our social value themes.

Social Value is a topic that I am very passionate about and I'm personally invested in growing Segen's ambitions and impact in this area, not just because of the business imperative and the growing expectations within industry, but because it's the right thing to do!

We have made great strides with this space in a very short time and I am committed to drive our progress at pace until it becomes just part of how we do business and is hardwired into our DNA.

My ambition is that we become a true industry leader in Social Value, that together with our supply chain is recognised and respected for our collective commitment to the highest ethical standards and known for making a real difference and having a positive impact on our people, communities & the environment.

*- Alan Hartley, Global Supply Chain Director*
